MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited)

1. ORGANIZATION

Exchange Traded Concepts Trust (the “Trust”) is a Delaware statutory trust formed on July 17, 2009. The Trust is registered with the Securities and Exchange Commission (the “Commission”) under the Investment Company Act of 1940 (the “1940 Act”) as an open-end management investment company with multiple investment portfolios. The financial statements herein are those of MUSQ Global Music Industry Index ETF (the “Fund”). The Fund seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the MUSQ Global Music Industry Index (the “Index”). Exchange Traded Concepts, LLC (the “Adviser”), an Oklahoma limited liability company, serves as the investment adviser for the Fund. The Fund is classified as “non-diversified” under the 1940 Act (see “Non-Diversification Risk” under Note 6). The Fund commenced operations on July 6, 2023.

Shares of the Fund are listed and traded on the NYSE Arca, Inc. (the “Exchange”). Market prices for shares of the Fund may be different from their net asset value (“NAV”). The Fund issues and redeems shares on a continuous basis to certain institutional investors (typically market makers or other broker-dealers) at NAV only in large blocks of shares called “Creation Units”. Creation Units are available for purchase and redemption on each business day and are offered and redeemed on an in-kind basis, together with a specified cash amount, or for an all cash amount. Once created, shares trade in a secondary market at market prices that change throughout the day in share amounts less than a Creation Unit.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Trust, are in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for investment companies. The accompanying financial statements have been prepared in accordance with U.S. GAAP on the accrual basis of accounting. Management has reviewed Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, Financial Services — Investment Companies (“ASC 946”), and concluded that the Fund meets the criteria of an “investment company,” and therefore, the Fund prepares its financial statements in accordance with investment company accounting as outlined in ASC 946.

Use of Estimates and Indemnifications — The Fund is an investment company in conformity with U.S. GAAP. Therefore, the Fund follows the accounting and reporting guidelines for investment companies. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

In the normal course of business, the Trust, on behalf of the Fund, enters into contracts that contain a variety of representations which provide general indemnifications. The Fund’s maximum exposure under these arrangements cannot be known; however, the Fund expects any risk of loss to be remote.

Segment Reporting — In accordance with the FASB Accounting Standards Update (ASU) 2023-07 Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, the Adviser reviewed each Fund in the Trust, evaluated its business activities and determined that each Fund operates as a single reportable operating segment. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (“CODM”) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The CODM is comprised of the Co-Chief Executive Officers of the Adviser, and who are also officers of the Trust. The CODM has established various management committees to assist the CODM with overseeing aspects of the fund’s daily operations and financial reporting. Through these committees, the CODM manages the fund’s

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

operations to achieve the investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. The Fund's income, expenses, assets, changes in net assets resulting from operations and performance are regularly monitored and assessed as a whole by the CODM responsible for oversight functions of the Fund.

Security Valuation — The Fund records its investments at fair value. Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on the NASDAQ Stock Market ("NASDAQ")), including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded (or at approximately 4:00 pm Eastern Time if a security's primary exchange is normally open at that time), or, if there is no such reported sale, at the most recent quoted bid price for long positions and at the most recent quoted ask price for short positions. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If available, debt securities are priced based upon valuations provided by independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded.

The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the fair value for such securities. Debt obligations with remaining maturities of sixty days or less when acquired will be valued at their market value. If a market value is not available from a pricing vendor or from an independent broker, the security shall be fair valued according to the Trust's fair value procedures. Prices for most securities held in the Fund are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent, third-party pricing agent, the Fund seeks to obtain a bid price from at least one independent broker.

Rule 2a-5 under the 1940 Act establishes requirements to determine fair value in good faith for purposes of the 1940 Act. The rule permits fund boards to designate a fund's investment adviser to perform fair-value determinations, subject to board oversight and certain other conditions. The rule also defines when market quotations are "readily available" for purposes of the 1940 Act and requires a fund to fair value a portfolio investment when a market quotation is not readily available.

Pursuant to the requirements of Rule 2a-5, the Trust's Board of Trustees (the "Board") (i) has designated the Adviser as the Board's valuation designee to perform fair-value determinations for the Fund through the Adviser's Valuation Committee and (ii) approved the Adviser's Valuation Procedures.

Some of the more common reasons that may necessitate that a security be valued using fair value procedures include: the security's trading has been halted or suspended; the security has been de-listed from a national exchange; the security's primary trading market is temporarily closed at a time when, under normal conditions, it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. In addition, the Fund may fair value its securities if an event that may materially affect the value of the Fund's securities that traded outside of the United States (a "Significant Event") has occurred between the time of the security's last close and the time that the Fund calculates its net asset value. A Significant Event may relate to a single issuer or to an entire market sector. Events that may be Significant Events include, but are not limited to, government actions, natural disasters, armed conflict, acts of terrorism and significant market fluctuations. If the Adviser becomes aware of a Significant Event that has occurred with respect to a security or group of securities after the closing of the exchange or market on which the security or securities principally trade, but before the time at which the Fund calculates its net asset value, it may request that a Committee meeting be called. When a security is valued in accordance with the fair value procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Fund discloses fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 — Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Fund has the ability to access at the measurement date;
- Level 2 — Quoted prices which are not active, or inputs that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 — Prices, inputs or proprietary modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The valuation techniques used by the Fund to measure fair value during the six months ended October 31, 2025, maximized the use of observable inputs and minimized the use of unobservable inputs. Investments are classified within the level of the lowest significant input considered in determining fair value.

Federal Income Taxes — It is the Fund's intention to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended. Accordingly, no provisions for Federal income taxes have been made in the financial statements.

The Fund's policy is to classify interest and penalties associated with underpayment of federal and state income taxes, if any, as income tax expense on its Statement of Operations. As of October 31, 2025, the Fund did not have any interest or penalties associated with the underpayment of any income taxes. Current tax years remain open and subject to examination by tax jurisdictions. The Fund has reviewed all major jurisdictions and concluded that there is no impact on the Fund's net assets and no tax liability resulting from unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken on its tax returns.

Foreign Taxes — The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on either income or gains earned or repatriated. The Fund accrues and applies such taxes to net investment income, net realized gains and net unrealized gains as income and/or capital gains earned.

Security Transactions and Investment Income — Security transactions are accounted for on trade date. Costs used in determining realized gains and losses on the sale of investment securities are based on specific identification. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis. Withholding taxes and reclaims on foreign dividends, if any, have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Foreign Currency Translation — The books and records of the Fund are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in a foreign currency are translated into U.S. dollars on the date of valuation. Purchases and sales of investment securities, income and expenses are translated into U.S. dollars at the relevant rates of exchange prevailing on the respective dates of such transactions. The Fund does not isolate that portion of realized or unrealized gains and losses resulting from changes in the foreign exchange rate from fluctuations arising from changes in the market prices of the securities. These gains and losses are included in net realized and unrealized gains and losses on investments on the Statement of Operations. Net realized and unrealized gains and losses on foreign currency transactions represent net foreign exchange gains or losses from foreign currency exchange contracts, disposition of foreign currencies, currency gains or losses realized between trade and settlement dates on securities transactions and the difference between the amount of the investment income and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. The Fund may be subject to foreign taxes related to foreign income received, capital gain on the sale of securities and certain foreign currency transactions (a portion of which may be reclaimable). All foreign taxes are recorded in accordance with the applicable regulations and rates that exist in the foreign jurisdictions in which the Fund invests.

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

2. SIGNIFICANT ACCOUNTING POLICIES (Concluded)

Cash and Cash Equivalents — Idle cash may be swept into various overnight demand deposits and is classified as Cash and Cash equivalents on the Statement of Assets and Liabilities, if any. The Fund maintains cash in bank deposit accounts which, at times, may exceed United States federally insured limits. Amounts swept overnight are available on the next business day.

Dividends and Distributions to Shareholders — The Fund pays out dividends from its net investment income and distributes its net capital gains, if any, to investors at least annually. All distributions are recorded on ex-dividend date.

Creation Units — The Fund issues and redeems shares at NAV and only in Creation Units or multiples thereof. Purchasers of Creation Units (“Authorized Participants”) at NAV must pay a standard creation transaction fee, regardless of the number of Creation Units created in a given transaction. An Authorized Participant who holds Creation Units and wishes to redeem at NAV would also pay a standard minimum redemption transaction fee to the custodian on the date of such redemption, regardless of the number of Creation Units redeemed in a given transaction. The Fund may charge, either in lieu of or in addition to the fixed creation transaction fee, a variable fee for creations and redemptions in order to cover certain non-standard brokerage, tax, foreign exchange, execution, market impact and other costs and expenses related to the execution of trades resulting from such transactions. In all cases, such fees will be limited in accordance with the requirements of the Commission applicable to management investment companies offering redeemable securities.

The Adviser may retain all or a portion of the transaction fee to the extent the Adviser bears the expenses that otherwise would be borne by the Trust in connection with the purchase or redemption of a Creation Unit, which the transaction fee is designed to cover.

Except when aggregated in Creation Units, shares are not redeemable securities of the Fund. Shares of the Fund may only be purchased or redeemed by certain Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company (“DTC”) participant and, in each case, must have executed an Authorized Participant Agreement with the Fund’s distributor. Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase and sell shares in the secondary market with the assistance of a broker and will be subject to customary brokerage commissions or fees.

To the extent contemplated by an Authorized Participant Agreement, in the event an Authorized Participant has submitted a redemption request in proper form but is unable to transfer all or part of the shares comprising a Creation Unit to be redeemed to SEI Investments Distribution Co. (the “Distributor”), on behalf of the Fund, by the time as set forth in the Authorized Participant Agreement, the Distributor may nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible, which undertaking shall be secured by the Authorized Participant’s delivery and maintenance of collateral equal to a percentage of the value of the missing shares as specified in the Authorized Participant Agreement. An Authorized Participant Agreement may permit the Fund to use such collateral to purchase the missing shares, and could subject an Authorized Participant to liability for any shortfall between the cost of the Fund acquiring such shares and the value of the collateral. Amounts are disclosed as Segregated Cash Balance from Authorized Participants for Deposit Securities and Collateral Payable upon Return of Deposit Securities on the Statement of Assets and Liabilities, when applicable.

3. SERVICE PROVIDERS

Investment Advisory and Administrative Services

The Adviser is an Oklahoma limited liability company located at 10900 Hefner Pointe Drive, Suite 400, Oklahoma City, Oklahoma 73120, its principal place of business, and 295 Madison Avenue, New York, New York 10017. The Adviser serves as investment adviser to the Fund pursuant to an investment advisory agreement with the

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

3. SERVICE PROVIDERS (Continued)

Trust (the “Advisory Agreement”). Under the Advisory Agreement, the Adviser provides investment advisory services to the Fund and is responsible for the day-to-day management of the Fund, including, among other things, implementing changes to the Fund’s portfolio in connection with any rebalancing or reconstitution of the Index, trading portfolio securities on behalf of the Fund, and selecting broker-dealers to execute purchase and sale transactions, subject to the oversight of the Board. For the services it provides to the Fund, the Fund pays the Adviser a fee, which is calculated daily and paid monthly, at an annual rate of 0.89% of the average daily net assets of the Fund. The Adviser has contractually agreed to waive a portion of its management fee in an amount equal to 0.14% of average daily net assets through August 31, 2026. The fees waived are non-recoupable.

ETC Platform Services, LLC (“ETC Platform Services”), a direct wholly-owned subsidiary of the Adviser, administers the Fund’s business affairs and provides office facilities and equipment, certain clerical, bookkeeping and administrative services, paying agent services under the Fund’s unitary fee arrangement (as described below), and its officers and employees to serve as officers or Trustees of the Trust. ETC Platform Services also arranges for transfer agency, custody, fund administration and accounting, and other non-distribution related services necessary for the Fund to operate. For the services it provides to the Fund, ETC Platform Services is paid a fee calculated daily and paid monthly based on a percentage of the Fund’s average daily net assets.

Under the Advisory Agreement, the Adviser has agreed to pay all expenses incurred by the Fund (including the fee charged by ETC Platform Services) except for the advisory fee, interest, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution fees and expenses paid by the Fund under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act (“Excluded Expenses”).

MUSQ, LLC is the sponsor of the Fund’s Index and the Fund (the “Sponsor”). In connection with an arrangement between the Adviser and the Sponsor, the Sponsor has agreed to assume the obligation of the Adviser to pay all expenses of the Fund (except Excluded Expenses) and, to the extent applicable, pay the Adviser a minimum fee. For its services, the Sponsor is entitled to a fee from the Adviser, which is calculated daily and paid monthly, based on a percentage of the average daily net assets of the Fund. The Sponsor does not make investment decisions, provide investment advice, or otherwise act in the capacity of an investment adviser to the Fund.

A Trustee and certain officers of the Trust are affiliated with the Adviser and receive no compensation from the Trust for serving as officers and/or Trustee.

Distribution Arrangement

The Distributor serves as the Fund’s underwriter and distributor of shares pursuant to a distribution agreement (the “Distribution Agreement”). Under the Distribution Agreement, the Distributor, as agent, receives orders to purchase shares in Creation Units and transmits such orders to the Fund’s custodian and transfer agent. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor bears the following costs and expenses relating to the distribution of shares: (i) the expenses of maintaining its registration or qualification as a dealer or broker under federal or state laws; (ii) filing fees; and (iii) all other expenses incurred in connection with the distribution services, that are not reimbursed by the Adviser, as contemplated in the Distribution Agreement. The Distributor does not maintain any secondary market in Fund shares.

The Fund has adopted a Distribution and Service Plan (the “Plan”) pursuant to Rule 12b-1 under the 1940 Act. In accordance with the Plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year for certain distribution-related activities. For the six months ended October 31, 2025, no fees were charged by the Distributor under the Plan and the Plan will only be implemented with approval of the Board.

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

3. SERVICE PROVIDERS (Concluded)

Administrator, Custodian and Transfer Agent

SEI Investments Global Funds Services serves as the Fund's administrator pursuant to an administration agreement. The Bank of New York Mellon serves as the Fund's custodian and transfer agent pursuant to a custodian agreement and transfer agency services agreement. The Adviser pays these fees.

An officer of the Trust is affiliated with the administrator and receives no compensation from the Trust for serving as an officer.

4. INVESTMENT TRANSACTIONS

For the six months ended October 31, 2025, the purchases and sales of investments in securities, excluding in-kind transactions, long-term U.S. Government and short-term securities were:

	Purchases		Sales and Maturities
\$	4,802,927	\$	4,882,777

For the six months ended October 31, 2025, there were no purchases or sales of long-term U.S. Government securities by the Fund.

For the six months ended October 31, 2025, in-kind transactions associated with creations and redemptions were:

	Purchases		Sales		Net Realized Gain (Loss)
\$	—	\$	901,890	\$	288,166

5. TAX INFORMATION

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent. To the extent these differences are permanent in nature, they are charged or credited to paid-in capital, or distributable earnings (accumulated losses), as appropriate, in the period that the differences arise.

The tax character of dividends paid during the year ended April 30, 2025, and the period ended April 30, 2024, were as follows:

	Ordinary Income	Long-Term Capital Gain	Totals
2025.....	\$ 229,745	\$ —	\$ 229,745
2024.....	111,993	—	111,993

As of April 30, 2025, the components of Distributable Earnings (Accumulated Losses) on a tax basis were as follows:

Capital Loss Carryforwards	\$ (3,111,692)
Deferred Late-Year Losses	(40,842)
Unrealized Appreciation (Depreciation)	3,478,962
Total Distributable Earnings (Accumulated Losses)	<u>\$ 326,428</u>

Late-Year losses represent certain capital and ordinary losses which occur during the portion of the Fund's taxable year subsequent to October 31 and December 31, respectively, that, in accordance with Federal income tax regulations, the Funds may elect to defer and treat as having arisen in the following fiscal year.

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

5. TAX INFORMATION (Concluded)

The Fund is permitted to utilize capital losses that are carried forward and will retain their character as either short-term or long-term capital losses. As of April 30, 2025, the Fund had the following capital loss carryforwards to offset capital gains for an unlimited period:

Non-Expiring Short-Term	Non-Expiring Long-Term	Total Capital Loss Carryforwards
\$ 2,341,399	\$ 770,293	\$ 3,111,692

The Federal tax cost and aggregate gross unrealized appreciation and depreciation on investments and foreign currency transactions held by the Fund at October 31, 2025, were as follows:

Federal Tax Cost	Aggregated Gross Unrealized Appreciation	Aggregated Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
\$ 18,938,241	\$ 6,508,216	\$ (343,608)	\$ 6,164,608

6. PRINCIPAL RISKS OF INVESTING IN THE FUND

As with all exchange traded funds (“ETFs”), a shareholder of the Fund is subject to the risk that his or her investment could lose money. The Fund is subject to the principal risks noted below, any of which may adversely affect the Fund’s NAV, trading price, yield, total return and ability to meet its investment objective. Additional principal risks are disclosed in the Fund’s prospectus. Please refer to the Fund’s prospectus for a complete description of the principal risks of investing in the Fund.

Currency Exchange Rate Risk. To the extent the Fund invests in securities denominated in non-U.S. currencies, changes in currency exchange rates and the relative value of non-U.S. currencies will affect the value of the Fund’s investment and the value of your shares. Because the Fund’s NAV is determined in U.S. dollars, the Fund’s NAV could decline if the currency of the non-U.S. market in which the Fund invests depreciates against the U.S. dollar, even if the value of the Fund’s holdings, measured in the foreign currency, increases. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an investment in the Fund may change quickly and without warning and you may lose money.

Emerging Markets Securities Risk. Emerging markets are subject to greater market volatility, lower trading volume, political and economic instability, uncertainty regarding the existence of trading markets and more governmental limitations on foreign investment than more developed markets. In addition, securities in emerging markets may be subject to greater price fluctuations than securities in more developed markets. Differences in regulatory, accounting, auditing, and financial reporting and recordkeeping standards could impede the Adviser’s ability to evaluate local companies and impact the Fund’s performance. Investments in securities of issuers in emerging markets may also be exposed to risks related to a lack of liquidity, greater potential for market manipulation, issuers’ limited reliable access to capital, and foreign investment structures. Additionally, the Fund may have limited rights and remedies available to it to pursue claims against issuers in emerging markets.

Foreign Securities Risk: Investments in non-U.S. securities involve certain risks that may not be present with investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to expropriation, nationalization or adverse political or economic developments. Foreign securities may have relatively low market liquidity and decreased publicly available information about issuers. Investments in non-U.S. securities also may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. Non-U.S. issuers may also be subject to inconsistent and potentially less stringent accounting, auditing, financial reporting and investor protection standards than U.S. issuers. These and other factors can make investments in the Fund more volatile and potentially less liquid

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Continued)

6. PRINCIPAL RISKS OF INVESTING IN THE FUND (Continued)

than other types of investments. In addition, where all or a portion of the Fund's portfolio holdings trade in markets that are closed when the Fund's market is open, there may be valuation differences that could lead to differences between the Fund's market price and the value of the Fund's portfolio holdings.

Limited Authorized Participants, Market Makers and Liquidity Providers Concentration Risk: Because the Fund is an ETF, only a limited number of institutional investors (known as "Authorized Participants") are authorized to purchase and redeem shares directly from the Fund. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occurs, the risk of which is higher during periods of market stress, shares of the Fund may trade at a material discount to NAV, possibly face delisting and may experience wider bid-ask spreads: (i) Authorized Participants exit the business or otherwise become unable to process creation and/or redemption orders and no other Authorized Participants step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

Market Risk: The market price of an investment could decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. The market value of an investment also may decline because of factors that affect a particular industry or industries such as labor shortages, increased production costs, and competitive conditions. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific investments. For example, in recent years, the COVID-19 pandemic, the large expansion of government deficits and debt as a result of government actions to mitigate the effects of the pandemic, Russia's invasion of Ukraine, and the rise of inflation have resulted in extreme volatility in the global economy and in global financial markets. Economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not the Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic and financial difficulties, the value and liquidity of the Fund's investments may be negatively affected.

Music Royalty Trust Risk. Royalty trusts are special purpose vehicles organized as investment trusts created to make investments in music royalties. A music royalty trust generally acquires an interest in music royalties and/or music royalty companies and distributes the income it receives to the investors of the royalty trust. A sustained decline in demand for the royalty trust's underlying asset could adversely affect income and royalty trust revenues and cash flows. Factors that could lead to a decrease in market demand include a recession or other adverse economic conditions, an increase in the market price of the underlying investment, higher taxes or other regulatory actions that increase costs, or a shift in consumer demand for such products. A rising interest rate environment could adversely impact the performance of royalty trusts.

Non-Diversification Risk: The Fund is non-diversified under the 1940 Act, meaning that, as compared to a diversified fund, it can invest a greater percentage of its assets in securities issued by or representing a small number of issuers. As a result, the performance of these issuers can have a substantial impact on the Fund's performance.

Sector Focus Risk. The Fund may invest a significant portion of its assets in one or more sectors and thus will be more susceptible to the risks affecting those sectors. While the Fund's sector exposure is expected to vary over time based on the composition of the Index, the Fund anticipates that it may be subject to some or all of the risks described below. As of October 31, 2025, a significant portion of the Index consisted of companies in the Communication Services Sector.

Communication Services Sector Risk. The Fund's assets will have significant exposure to the Communication Services Sector, which means the Fund will be more affected by the performance of the Communication Services Sector than a fund that is more diversified. Market or economic factors impacting companies in the Communication Services Sector that rely heavily on technological advances could have a major effect

MUSQ Global Music Industry Index ETF

Notes to Financial Statements

October 31, 2025 (Unaudited) (Concluded)

6. PRINCIPAL RISKS OF INVESTING IN THE FUND (Concluded)

on the value of the Fund's investments. The value of stocks of communication services companies and companies that rely heavily on technology is particularly vulnerable to research and development costs, substantial capital requirements, product and services obsolescence, government regulation, and domestic and international competition, including competition from foreign competitors with lower production costs. Stocks of communication services companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Additionally, companies in the Communication Services Sector may face dramatic and often unpredictable changes in growth rates and competition for the services of qualified personnel. While all companies may be susceptible to network security breaches, certain companies in the Communication Services Sector may be particular targets of hacking and potential theft of proprietary or consumer information or disruptions in service, which could have a material adverse effect on their businesses.

7. OTHER

At October 31, 2025, the records of the Trust reflected that 100% of the Fund's total shares outstanding were held by two Authorized Participants, in the form of Creation Units. However, the individual shares comprising such Creation Units are listed and traded on the Exchange and have been purchased and sold by persons other than Authorized Participants.

8. RECENT MARKET EVENTS

Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities. Periods of market volatility may occur in response to such events and other economic, political, and global macro factors.

Governments and central banks, including the Federal Reserve in the United States, took extraordinary and unprecedented actions to support local and global economies and the financial markets in response to the COVID-19 pandemic, including by keeping interest rates at historically low levels for an extended period. The Federal Reserve concluded its market support activities in 2022 and raised interest rates in an effort to fight inflation. The Federal Reserve has begun to lower interest rates and may continue to do so in the future. Trade disputes and the imposition of tariffs, along with other matters, may negatively impact the economies of the United States and its trading partners, as well as the financial markets as a whole. This and other government intervention into the economy and financial markets to address significant events in the future may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results.

9. RECENT ACCOUNTING PRONOUNCEMENT

In December 2023, the FASB issued Accounting Standards Update 2023-09 ("ASU 2023-09"), Income Taxes (Topic 740) Improvements to Income Tax Disclosures, which amends quantitative and qualitative income tax disclosure requirements in order to increase disclosure consistency, bifurcate income tax information by jurisdiction and remove information that is no longer beneficial. ASU 2023-09 is effective for annual periods beginning after December 15, 2024, and early adoption is permitted. Fund Management is evaluating the impacts of these changes on the Fund's financial statements.

10. SUBSEQUENT EVENTS

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no additional disclosures and/or adjustments were required to the financial statements.

MUSQ Global Music Industry Index ETF

Other Information (Form N-CSRS Items 8-11)

(Unaudited)

Item 8. Changes in and Disagreements with Accountants for Open-End Management Investment Companies.

Not applicable.

Item 9. Proxy Disclosures for Open-End Management Investment Companies.

There were no matters submitted to a vote of shareholders during the period covered by this report.

Item 10. Remuneration Paid to Directors, Officers, and Others of Open-End Management Investment Companies.

All fund expenses, including Trustee compensation, is paid by the Adviser pursuant to the Advisory Agreement. Additional information related to those fees is available in the Fund's Statement of Additional Information.

Item 11. Statement Regarding Basis for Approval of Investment Advisory Contract.

At a meeting held on September 24, 2025 (the "Meeting"), the Board of Trustees (the "Board") of Exchange Traded Concepts Trust (the "Trust") considered and approved the continuance of the investment advisory agreement between the Trust, on behalf of the MUSQ Global Music Industry Index ETF (the "Fund"), and Exchange Traded Concepts, LLC ("ETC") pursuant to which ETC provides advisory services to the Fund (the "Agreement").

Pursuant to Section 15 of the Investment Company Act of 1940 (the "1940 Act"), the Agreement must be approved by a vote of (i) the Trustees or the shareholders of the Fund and (ii) a majority of the Trustees who are not parties to the Agreement or "interested persons" of any party thereto, as defined in the 1940 Act (the "Independent Trustees"), cast in person at a meeting called for the purpose of voting on such approval. In connection with its consideration of such approval, the Board must request and evaluate, and ETC is required to furnish, such information as may be reasonably necessary to evaluate the terms of the Agreement. In addition, rules under the 1940 Act require the Fund to disclose in its Form N-CSR the material factors and the conclusions with respect thereto that formed the basis for the Board's approval of the Agreement.

Consistent with these responsibilities, prior to the Meeting, the Board reviewed written materials from ETC and, at the Meeting, representatives from ETC presented additional oral and written information to help the Board evaluate the Agreement. Among other things, representatives from ETC provided an overview of its advisory business, including investment personnel and investment processes. During the Meeting, the Board discussed the materials it received, including a memorandum from legal counsel to the Independent Trustees on the responsibilities of Trustees in considering the approval of investment advisory agreements under the 1940 Act, considered ETC's oral presentation, and deliberated on the approval of the Agreement in light of this information. Throughout the process, the Trustees were afforded the opportunity to ask questions of and request additional materials from ETC. The Independent Trustees were assisted in their review by independent legal counsel and met with counsel separately and without management present.

In considering whether to approve the continuance of the Agreement, the Board took into account the materials provided for the Meeting, the extensive discussions before and during the Meeting, including the discussions the Independent Trustees had during their executive session with independent legal counsel. In particular, the Board took into consideration (i) the nature, extent, and quality of the services provided by ETC to the Fund; (ii) the Fund's performance; (iii) ETC's costs of and profits realized from providing advisory services to the Fund, including any fall-out benefits to ETC or its affiliates; (iv) comparative fee and expense data; (v) the extent to which the advisory fee for the Fund reflects economies of scale shared with Fund shareholders; and (vi) other factors the Board deemed to be relevant.

Nature, Extent, and Quality of Services. With respect to the nature, extent, and quality of the services provided to the Fund, the Board considered ETC's specific responsibilities in all aspects of the day-to-day management of the Fund.

MUSQ Global Music Industry Index ETF

Other Information (Form N-CSRS Items 8-11)

(Unaudited) (Continued)

The Board considered that responsibilities with respect to the Fund's portfolio include developing, implementing, and maintaining the Fund's investment program; implementing changes to the Fund's portfolio in connection with any rebalancing or reconstitution of the underlying index; selecting broker-dealers to execute purchase and sale transactions; determining the daily baskets of deposit securities and cash components; executing portfolio securities trades for purchases and redemptions of Fund shares conducted on a cash-in-lieu basis. The Board considered that beyond portfolio management, ETC, including through its affiliates, also maintains responsibilities for overseeing compliance with relevant law; monitoring compliance with various policies and procedures and applicable securities regulations; providing various administrative services to the Fund and overseeing third-party administrators; quarterly reporting to the Board; and implementing Board directives as they relate to the Fund. The Board considered that those services also include arranging for and providing oversight of transfer agency, custody, fund administration and accounting, and other non-distribution related services necessary for the Fund to operate; administering the Fund's business affairs; negotiating licensing agreements with index providers and overseeing the relationship between the Fund and the index provider; providing office facilities and equipment and certain clerical, bookkeeping, and administrative services; liaising with and reporting to the Board on matters relating to Fund operations; supervising the Fund's registration as an investment company and the offering of Fund shares to the public, including oversight and preparation of regulatory filings; working with ETF market participants, including authorized participants, market makers, and exchanges, to help facilitate an orderly trading environment for the Fund's shares; and providing its officers and employees to serve as officers or Trustees of the Trust.

The Board noted that it has reviewed ETC's responses to a detailed series of questions, which included a description of ETC's consolidated operations, services, personnel, compliance program, risk management program, and financial condition, and an overview of the material changes to such information since it was last presented to the Board. The Board considered the qualifications, experience, and responsibilities of ETC's investment personnel, the quality of ETC's compliance infrastructure, and the determination of the Trust's Chief Compliance Officer that ETC has procedures that are reasonably designed to comply with the federal securities laws. The Board considered ETC's experience working with ETFs, including the Fund, other series of the Trust, and other ETFs outside of the Trust. The Board also considered the pending organizational changes at ETC. The Board noted no other material changes to ETC's staffing, management, or overall condition over the past year. Based on the factors discussed above, as well as those discussed below, the Board concluded that it was satisfied with the nature, extent, and quality of services provided to the Fund by ETC.

Based on review of this information, the Board concluded that the nature, extent and quality of services provided to the Fund under the Advisory Agreement supported the Board's approval of the continuance of the Advisory Agreement for the coming year.

Performance. The Board reviewed the Fund's performance in light of its stated investment objective, noting that the Fund is passively managed and its objective was to provide investment results that correspond to the total return performance of its index. The Board was provided with reports regarding the Fund's past performance, including a report comparing the Fund's performance to the performance of its underlying index for one year ended June 30, 2025 and since inception, and reports prepared by ISS, an independent third party, comparing each Fund's advisory fee to those paid by a group of peer funds. The Board found that the Fund generally performed in line with its index over the relevant period. The Board reviewed information regarding the Fund's index tracking, noting, as applicable, the factors that contributed to the Fund's tracking error, including a liquidity imbalance and the Fund changing its underlying index effective November 26, 2024. The Board further noted that it received regular reports regarding the Fund's performance, including tracking error, at its quarterly meetings throughout the year.

Cost of Advisory Services and Profitability. The Board reviewed the advisory fee paid by the Fund to ETC under the Agreement. The Board reviewed a report prepared by ISS, an independent third party, comparing the Fund's advisory fee to those paid by a group of peer funds. The Board noted that the Fund's advisory fee was the highest among its peer group. The Board considered that ETC has contractually agreed to waive its fees and reimburse expenses in an amount equal to 0.14% of average daily net assets of the Fund.

MUSQ Global Music Industry Index ETF

Other Information (Form N-CSRS Items 8-11)

(Unaudited) (Concluded)

The Board took into consideration that the advisory fee for the Fund is a “unitary fee,” meaning that the Fund pays no expenses other than the advisory fee and certain expenses customarily excluded from unitary fee arrangements, such as brokerage commissions, taxes and interest. The Board noted that, under the Agreement, ETC is responsible for compensating the Fund’s other service providers and paying the Fund’s other expenses out of its own fee and resources and that, while the Fund’s index provider has assumed such responsibility, ETC is ultimately responsible for ensuring the obligation is satisfied. The Board considered information provided about the costs and expenses incurred by ETC in providing advisory services, evaluated the compensation and benefits received by ETC from its relationship with the Fund, and reviewed profitability information from ETC with respect to the Fund. The Board considered the risks borne by ETC associated with providing services to the Fund, including the entrepreneurial risk associated with sponsoring new funds, as well as the enterprise risk emanating from litigation and reputational risks, operational and business risks, and other risks associated with the ongoing management of the Fund. Based on the foregoing information, the Board concluded that the advisory fee appeared reasonable in light of the services rendered.

Economies of Scale. The Board considered whether economies of scale have been realized with respect to the Fund. The Board concluded that no significant economies of scale have been realized and that the Board will have the opportunity to periodically reexamine whether such economies have been achieved.

Other Benefits. The Board considered other direct and indirect benefits that could be realized by ETC from its relationship with the Fund. The Board considered that ETC does not utilize soft dollars with respect to the Fund. The Board considered that ETC receives some form of reputational benefits from services rendered to the Fund, but that such benefits are immaterial and cannot otherwise be quantified. The Board concluded that the additional benefits ETC receives from its relationship with the Fund are reasonable and appropriate.

Conclusion. No single factor was determinative of the Board’s decision to approve the continuance of the Agreement on behalf of the Fund; rather, the Board based its determination on the total mix of information available to it. Based on a consideration of all the factors in their totality, the Board, including the Independent Trustees, determined that the Agreement, including the compensation payable thereunder, was fair and reasonable to the Fund. The Board, including the Independent Trustees, therefore determined that the approval of the continuance of the Agreement was in the best interests of the Fund and its shareholders.
